

**Terms and Conditions for receipt of External Data and Research
during the Distance Insights Engagement Process**

By submitting, uploading, posting, or sending information (including but not limited to, ideas, information, findings, research, data, documents, studies, analysis, whether proprietary or in the public domain, collectively "Submitted Materials") to R&A Rules Limited ("the R&A") and/or the USGA, you understand and agree that your Submitted Materials have been accepted for review and possible publication in connection with the Distance Insights project, unless otherwise agreed to in writing by you and both the R&A and the USGA.

You represent that, other than public domain items, you have the right and authority to provide the R&A and USGA with the Submitted Materials. Submitted Materials which are relevant to the Distance Insights project will be considered equally, whether or not the Submitted Materials become part of any publication associated with the Distance Insights project. The R&A and USGA reserve the right to incorporate the Submitted Materials in its Distance Insights project and potential publications, in whole or in part, with or without attribution, in their sole discretion. Inappropriate comments, or comments received from anonymous sources, will not be published.

You understand and agree that your provision of Submitted Materials does not grant any right or license to publicize the fact of your submission or make public statements regarding participation in the Distance Insights project, without the prior written consent of the R&A and USGA.
